# FOREWORD

FIBA understands the importance of women's basketball and is fully committed to helping it reach new heights. With 213 National Federation members around the world, we have recognized the need to analyze the current status of women's involvement across all levels of our sport. This is why the Women in Basketball – National Federations Survey Report at hand has been compiled.

Since the first FIBA Women's World Cup in 1953 in Chile, women's basketball has seen significant growth in development and popularity, with numerous success stories from all continents. While celebrating these advances, we do recognise that there is still a lot of work to be done.

FIBA is committed to having more women in basketball, from increasing the number of female players, coaches and officials, to bringing more female fans closer to basketball. It's imperative, too, that women are involved in greater numbers in the governance of the game within the FIBA family. FIBA's aim is always to encourage more women to join us, either on the court, in the basketball venues or in the board rooms.

2019 was a pivotal year for FIBA concerning women's basketball. Following a very successful FIBA Women's Basketball World Cup the previous year in Tenerife, Spain, the FIBA Congress placed women's basketball as a priority for the cycle 2019-2023 on the roadmap for the future of basketball.

We are determined to promote gender equality in basketball and to use the potential of the sport to promote equality in its broadest sense. A gender-friendly environment should be a standard feature of all sporting institutions and I do not doubt that the sports world will be the first to reap the benefits.

Therefore, I welcome this report as an invaluable input into one of FIBA's strategic priorities. We are confident that this work being done will lead to the implementation of concrete actions at a national and global level throughout the basketball community

Sincerely,  
**Andreas Zagklis**  
 FIBA Secretary General

# 1.1 FIBA STRATEGY

The FIBA Congress approved in 2019 the inclusion of Women in Basketball as one of the three main strategic priorities for the cycle of 2019-2023. The following have been identified as the main goals of FIBA's Women in Basketball strategic priority:

**1 INCREASE FEMALE PLAYERS' PARTICIPATION**

**2 DEVELOP AND LEVERAGE ELITE COACHES & REFEREES**

**3 INCREASE NUMBER OF FANS CONSUMING WOMEN'S BASKETBALL**

**4 MAXIMIZE THE IMPACT OF WOMEN'S COMPETITIONS (5X5 AND 3X3)**

**5 INCREASE GENDER DIVERSITY IN NFS AND FIBA ELECTED BODIES**

**6 INCREASE GENDER DIVERSITY IN FIBA STAFFING**

# 1.2 SAMPLE AND METHODOLOGY

In order to gain critical insight into the current state of play, FIBA conducted a baseline survey with it’s **213 National Federations** members, of which **172** participated. This has allowed us to measure and evaluate the **current global landscape of women’s basketball**, with the survey results helping to inform and tailor **strategic implementation plans**.

The survey featured **130 questions**, which covered a number of topics that are vital to the development and growth of the women’s game within our member federations. This covers everything from players and national teams, clubs and domestic competitions, to governance, communications, marketing and operational structures.

For the purpose of this report, only 47 questions have been taken into consideration, keeping the remaining 73 questions focusing on the women’s national league for a future study.

Online survey sent to all National Federation members in May 2020 and completed by 172 members. Data collection finished in November 2020.

## Data collection from two different sources included:

### Survey covers the following topics:

- Players’ registration
- Women in NFs / Governance
- Women in Basketball Challenges
- Senior Women’s National Team
- Women’s Youth National Teams

### Data of FIBA in regard to:

- FIBA Management & Administration Platform (MAP)
- FIBA Game Officials Licensing (referees & officials)
- WABC coaching members
- FIBA governance structure
- FIBA World Rankings presented by Nike
- FIBA 3x3 Rankings (individuals and NFs)
- FIBA Human Resources
- FIBA Foundation
- Others

Challenges: NFs have different databases and different ways of licencing and counting. Some NFs count only the players playing with the National Team (e.g. USAB), while others count all amateur players participating at any level (e.g. Japan). Similar case applies to referees and coaches. Therefore, one of the biggest challenges was to harmonise the different criteria followed by each NF.

To align with the Women in Basketball strategic goal “Develop and leverage elite coaches & referees”, FIBA requested all NFs to break down the total numbers of registered coaches and referees by categories, highlighting those that officiate and coach at the highest level.”

In order to make sure that the data is the most accurate, the analysis and report followed these steps:

1.

Data Collection from the two different sources

2.

Data Analysis and outliers’ management: contacting NFs individually to check for too high or too low numbers

3.

Data integration into a template per NF and contact all NFs to acknowledge and accept the numbers attributed to their country, or to provide accurate data

4.

Data calculation done with weighted average when applicable

The analysis is divided in the following subsections:

World numbers

Regional numbers

National federations numbers

3x3 overview

Media overview

Eligible to referee men's games  
at the highest level

**WABC**  
World Association of Basketball Coaches

WABC members are coaches who have been graded at the highest level by their National Member Federation and endorsed by FIBA and WABC. A coach must be a WABC member in order to be eligible to act as a Head Coach or as an Assistant Coach of a national team competing in the Competitions of FIBA.

**Elite Female Referees at National Level**  
Females referees eligible to officiate on national competitions controlled by the NF

**FIBA Female Referees**  
Female referees holding a FIBA license

**NF**  
National Federation

**The Gender Gap Index:**  
Measures gender equality, based on the relative gaps between women and men across 4 key areas: health, education, economy, and politics.

Countries not participating in the survey (41 countries) at closing date were (30 November 2020)
