FIBA GREETINGS

Friends and Fellow Basketball Lovers,
Welcome to the FIBA Asia Cup 2017, a historic and milestone event in the history of FIBA Continental events.
The FIBA Asia Cup 2017 marks a few firsts.
For starters, it is being hosted for the first time in Lebanon, a country where basketball is not only the no. 1 sport but also a great unifier of the society.
Lebanon's place in the history of Asian basketball was never in doubt. And with the successful hosting of the FIBA Asia Cup 2017, Lebanon has truly enhanced its reputation.
Many Congratulations to the Lebanese Basketball Federation for the success and much gratitude for their hosting.
The FIBA Asia Cup 2017 also for the first time in the history brings together two FIBA zones in the same Continental competition.
The combined strength of Asia and Oceania – two of the more dynamic zones in the FIBA family – will indeed add great depth to the competition. And the intense action on court at the FIBA Asia Cup 2017 will truly reflected the depth.
Both our Zones have laid great focus and attention on the development of their National teams. The very fact that these very teams will match wits once again in the 2019 FIBA Basketball World Cup Qualifiers has made the competition at the FIBA Asia Cup 2017 act as a true appetiser to the great feast ahead.
There will be many triumphs at the FIBA Asia Cup 2017, no doubt. So will be there disappointments.
Triumphs at FIBA Asia Cup 2017 are nothing but signs of the enormous potential for the future. Disappointments at the FIBA Asia Cup 2017 are nothing but signals to harness the potential for the future.
The world of basketball waits with bated breath for both – the signs and the signals – to progress to their logical and successful conclusion. For, in such success lies the future of basketball itself.
Thank you for being a part, and playing an important role in the success, of FIBA Asia Cup 2017.

PRESIDENT GREETINGS

Dear Guests and Delegations of the FIBA Asia Cup 2017,
A sports greeting,
It is a great pleasure to welcome you all in our beloved country, Lebanon which will host the first ever FIBA Asia Cup at the " Nouhad Nawfal Stadium" under the Patronage of his excellency, the President of the Lebanese Republic, General Michel Aoun.
This event which represents the largest continental basketball event in the world attracts the Lebanese people who are the greatest fans of basketball and especially the national teams and clubs which has achieved many successes.
This event represents that largest continental basketball event in the world and it attracts the Lebanese because basketball in this country is the most popular sport, mainly due to the successes of the Lebanese national team.
Lebanon, this small country (10452 km 2) will be the focal point of the basketball world from 8 to 20 August 2017.
On behalf of the Lebanese Basketball Federation, I would like to wish you all a pleasant stay in our beautiful country of the Cedars, a successful championship and a fair sports competition between the elite Asian National Teams.

Pierre Kakhia
President of the Lebanese Basketball Federation
HOST CITY LEBANON

Lebanon’s diverse patchwork of Mediterranean-lapped coast, rugged alpine peaks, and green fertile valleys is packed into a parcel of land some 225km long and 46km wide – an area approximately the size of Cyprus or Connecticut. An ancient land, Lebanon features in the writings of Homer and in the Old Testament. Its cities were major outposts and seaports in Phoenician and Roman times, just two of the great civilizations that touched this important Middle Eastern crossroads.

The cosmopolitan flair of modern-day Beirut, the gastronomic renown of the country’s food and wine, and an educated and outward-looking population complement a country that is both traditional and progressive in outlook. For all the flavors of its storied past and the urgency of its present, Lebanon is a well-kept tourist secret that begs exploration.

There are four main geographic regions in Lebanon, differentiated by topography and climate. From west to east, they include: the coastal plain, the Mount Lebanon Range, the Békaa Valley, and the Anti-Lebanon Range.

The Anti-Lebanon Range is a stretch of mountains that rise to the east of the Békaa Valley and form part of the country’s eastern border with Syria. The Békaa Valley, known in ancient times as “the breadbasket” or “granary” of the Roman Empire, is still the country’s main agricultural region. Located on a high plateau between the country’s two mountain ranges, the river-fed Békaa supports the production of tomatoes, potatoes, wheat, olives, and grapes, even despite summers that are hot and dry.

Besides some of Lebanon’s best wineries (Ksara, Kefraya, Massaya), the Békaa’s major attraction is the ruins at Baabek. Originating as a place of worship to Baal, the Phoenician Sun God, Baabek was known in Greco-Roman times as the famous Heliopolis, or “City of the Sun.” Perhaps because of the region’s agricultural importance in feeding the inhabitants of the Roman Empire, some of the largest Roman temples ever constructed were erected at this site. The construction lasted over 200 years, and the well-preserved temples honor Jupiter, Bacchus, and Venus.

The lovely Lebanese coast is framed by the Mediterranean Sea to the west and the Mount Lebanon Range to the east, its temperate climate bringing in sunny, hot summers and cool, rainy winters. The daytime temperature in the summer, which averages 30°C (86°F), encourages people to head to the beach or to the higher, altitude-cooled mountain slopes. In the coastal cities of Saida (Sidon) and Jibl (Byblos), tourists can enjoy the rare opportunity to snorkel amongst long-submerged Phoenician ruins, while excellent hiking is a mere hour away in the Chouf region of the Mount Lebanon Range.

The Mount Lebanon Range includes numerous rivers that flow with snowmelt, steep-walled gullies that shade grottoes once the hideout to those fleeing persecution, and also Lebanon’s highest summit, Qornet es-Saouda (3,090m). In winter, the high peaks are blanketed with snow, lending Es-Saouda (3,090m). In winter, the high peaks are blanketed with snow, lending
