

FIBA COMBINED WORLD RANKING

The following ranking has been generated on 1st April 2020. It is used for the FIBA Game Officials Licensing 2021-2023 allocations' calculation. The combined ranking is based on sports results of each national member federation in FIBA competitions for men, women, boys and girls.

The ranking for men and women (FIBA World Ranking presented by Nike) is calculated on a game-based system, whereas the ranking for boys and girls is calculated on a competition-based system (the latter is calculated within the scope of a two-Olympic-Games cycle and considers the points of these categories in the given cycle).
